

ATHARVA DATTATRAY DAHIBHATE

Aspiring Software Engineer | Full Stack Developer | BCA Student

Pune, Maharashtra | 9130107257 | atharvadahibhate.1212@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFILE

BCA student skilled in C, C++, Java, Python and React, with hands-on academic project experience and a solid foundation in Data Structures & Algorithms and software engineering. Seeking a software development or full-stack internship to build practical solutions and learn through real-world development.

EDUCATION

Bachelor of Computer Applications (BCA) — Indira University, ICCS School of Information Technology, Pune	<i>Expected 2028</i>
First-year GPA: 8.62 Cleared all first-year subjects	
Higher Secondary (HSC), Science — Yashwantrao Mohite College	<i>2025</i>
60.33%	
Secondary School (SSC) — PDEA's New English School, Ghotawade	<i>2023</i>
77.80%	

TECHNICAL SKILLS

Programming: C, C++, Java, Python

Web: HTML, CSS, JavaScript, React, Redux

Database & Analytics: SQL, Power BI

Tools: Git, GitHub, VS Code

DSA: Arrays, Linked Lists, Stacks, Queues, Searching, Recursion, Divide & Conquer; Bubble, Selection, Insertion, Merge and Quick Sort

Software Engineering: SDLC, requirements analysis, DFD, decision tables/trees, structure charts, coupling & cohesion

PROJECTS

AI-Assisted Library Management System	<i>Generative AI Project</i>
- Designed a role-based system for Students, Faculty, Librarians and Admin with separate access and dashboard views. - Planned core features: catalog search/filtering, issue and due-date tracking, fines and notifications. - Used generative AI tools to assist design and prototyping.	
Water Bill Management System	<i>C Academic Project</i>
Developed a C-based Water Bill Management System for managing consumer details, calculating bills, and maintaining billing records, applying functions, conditional statements, loops, and structured data handling.	
E-commerce Website	<i>Web Project</i>
Built a front-end e-commerce site with product listings and a basic online shopping interface using HTML, CSS and JavaScript.	

JOB SIMULATIONS (FORAGE)

- Software Engineering:** worked with a .NET backend and React/Redux frontend; explored testing, code coverage and the pull-request workflow.
- Cybersecurity Analyst:** completed an IAM strategy assessment and designed custom IAM solutions and platform integrations.
- Advisors & Consulting Services:** analyzed promotion-optimization scenarios and presented data-driven business recommendations.
- Client Service Delivery:** analyzed client requests, matched experts, created expert profiles and wrote client pitches.

CERTIFICATIONS

- Career Essentials in Generative AI — Microsoft & LinkedIn
- Microsoft Azure Essentials — Microsoft & LinkedIn
- Ethics in the Age of Generative AI — LinkedIn
- Everyday AI Concepts — LinkedIn
- What Is Generative AI? — LinkedIn

COURSEWORK

Python Programming, Data Structures & Algorithms, Software Engineering, IoT, DBMS

INTERESTS & LANGUAGES

Interests: Software Development, Full Stack Development, Cloud, Artificial Intelligence, Machine Learning

Languages: English, Hindi, Marathi (mother tongue)
